Health and Risk Management SERVICES

Meridian Health Services Network Health and Risk Management Services

Serving Businesses, Municipalities, Schools, Police and Fire Departments

Our Benchmark ...

Researching and implementing innovative strategies, aligned with preventative health, risk management, and compliance guidelines through predicative analytics, technology and service.

Our methodology combining analysis management, with national and local solutions highlights ways to stay ahead in the ever-changing field of health and risk management. Our plans deliver both hard dollar savings and value on investment, both financially and in human terms.

While this strategy is designed for employees and on-plan dependents, successful implementation delivers competitive employee plans that bring high satisfaction ratings and productivity. ***Broad use of the strategy delivers potentially millions of dollars in savings through lower workers compensation, healthcare, disability, and litigation expense.***

While each organization is unique, there are always common objectives when conceptualizing a health and risk management strategy. Customized objectives specific to employee bases come to light upon commencement of our projects.

Integrating Health and Risk Management Delivers ...

- Lower workers compensation, disability, litigation and health costs, while increasing benefits and employee productivity.
- Meridian HSN network strategy is simple – Lead with Education and Management assistance – understanding your employee base, implementation and utilization support.
- ***Simple hands-on solutions can take your current health and risk management investments and increase your return up to \$10 to \$1 for maximum utilization and savings.***
- Our network solutions work for all sizes of businesses and municipalities – from 50 employees to 50,000.
- Meridian's national network serves over 100 million employees and patients through our powerhouse of providers such as American Well, ComPsych, American Red Cross, Dell Life Solutions, Wellness Innovations, ELM, SeniorsResourceGuide.com complimented by local networks of Physicians, PT, OT and extended health and work comp support services.

Our National and Local Provider teams are just steps away waiting to help you and your employees.
