Cardio-Metabolic Assessment Test 35-Million-Dollar Special Funding

Meridian HSN has received 35-million-dollars in special funding for qualified hospitals, clinics, and physician practices. ***Under the funding program Meridian HSN provides a full turn-key NO COST solution that includes CMAT devices, paid on-site testers (yours or ours), billing training, tester training, healthcare provider training, installation of the device, technical assistance, and customer service.***

What is the CMAT Advantage?

The CMAT Advantage (Cardio-Metabolic Assessment Test) is a state-of-the-art FDA approved 7-minute non-invasive risk assessment device to evaluate patient symptoms and complications associated with chronic disease. **It can detect insulin resistance up to 8 years prior to diabetic symptoms assisting with early detection of chronic diseases, such as type 2 Diabetes, PAD and Vascular Disease.**

Additionally, it differentiates between vascular and neurological peripheral neuropathy and can detect endothelial dysfunction/arterial stiffness **(earliest detectable markers for stroke or heart attack).**

CMAT provides immediate assessment test data for diagnosis and treatments.

70% or more of facility and physician patients qualify for testing.

The CMAT does not require a specialist such as an RN or NP to conduct testing.

Medical Facilities

The CMAT Advantage is a key resource in utilization management and care transitions in Discharge Planning, Reducing Readmissions, Complications, Emergency Departments, Clinics, and hospital return days. CMAT assists Critical Access Hospitals and Swing Bed Care facilities in meeting core guidelines in Emergency Department Transfer Communications.

Physicians – Primary Care Practitioners, Cardiologists, Neurologists, Internists, Orthopedics, Chronic Disease Management, Wellness Specialists, Pain Management, Physical Medicine, and Rehabilitation

Practices that utilize ancillary treatments like Pain Management, Weight Loss, Knee Injections, Wound Care, Diabetes Relief, and such Modalities the CMAT is a great tool to show patients progression of treatment.

The CMAT Advantage test is covered by Medicare, Medicaid, and Commercial Insurance. It is helping thousands of doctors and facilities offer better treatment to their patients while generating a substantial revenue stream.
